ABOUT US

Paisley Products of Canada Incorporated is Canada's premier distributor and manufacturer of technical consumable materials. When you work with Paisley Products, you gain access to a wide range of leading brands, made-to-order fabrication, and custom design and manufacturing capabilities – all backed by our exceptional customer service and technical support teams.

At Paisley Products it is our priority to provide the best and most innovative solutions to our customers. We stay on top of industry trends, remain committed to product innovation, maintain our successful connection with global vendors, and actively look for corporate acquisitions to enhance our product line. It is our way of delivering technical solutions for the material challenges you face.

OUR SERVICES

DISTRIBUTION

Bringing you access to world-class brands like 3M, Albedo100, Dow Corning, DuPont, Epoxy Technology, Intertape, Plasti Dip, and our Paisley Products brands, Xmark, The Great Tape Company and Arno.

PRODUCT CUSTOMIZATION

Customizing your order with slitting, sheeting and cutting services in our fabrication department.

CONSUMABLE MANUFACTURING

Developing and manufacturing products such as tapes and adhesives that meet the specific demands of your unique situation, project or environment.

INVENTORY AND DELIVERY

Delivering products to you from our well stocked and managed inventory with on-time delivery from our locations in Toronto, Montreal and Edmonton.

INDUSTRIES

TRANSPORTATION

Paisley Products supplies the aerospace, automotive, rail, public transit and marine industries with materials such as electrical insulation, composites and vibration resistant adhesives that aid in the production of safe, attractive and durable modes of transportation. Our Customer Service team can assist you in choosing from our line of valves, dispensing systems, lubricants and coatings so you can improve performance, reduce cost and find the product best suited for your unique project.

ELECTRICAL

Since 1949, Paisley Products has been trusted by Canada's electrical equipment manufacturers to provide insulating materials for transformers and motors. Today we provide a complete line of high-quality, UL standard electrical tapes, sleeving, varnishes and composites. Fabrication is available at our facilities for custom requirements.

RETAIL

We are exclusive distributors of reliable brands such as Plasti Dip, Arno, Albedo100 and Xmark. Paisley Products offers our retail partners popular consumer products from spray coatings to silicones, adhesives, tapes, and surface protection, all delivered directly to retail locations across Canada from our warehouses in Toronto, Montreal and Edmonton.

ELECTRONICS

Paisley Products is a premier supplier to the world's top electronic manufacturing companies. Products like our EFD micro-dispensing systems are trusted for applying controlled amounts of adhesives, sealants, lubricants and other assembly fluids to help increase productivity and maximize the quality of electronics. Our electronics product line also includes conformal coatings, silicone gels, encapsulants and soldering materials to meet any job specifications.

CONSTRUCTION

Supporting builder and contractor best practices, Paisley Products supplies Xmark surface protection products used to protect internal and external surfaces during construction and designed to leave no adhesive residues. Made for a variety of materials used on counter tops, tubs, walls, windows, cabinetry, floors and stairs, Xmark products are reusable, recyclable and contribute towards LEED credits. We also offer house and foundation wraps, roof underlayment, weather proofing sealants and flashing tapes for building envelope applications.

INDUSTRIAL MANUFACTURING

Industrial manufacturers rely on Paisley Products to provide a range of products from adhesives to lubricants, tapes, sealants, UV equipment and speciality chemicals. Serving multiple industries, we support high-quality manufacturing with products that promote adhesion, accelerate product cure times and remain durable in any environment.
